Passage 1

You are in a travel agency when you see the following advertisement.

Amazing Australian Adventure

Explore the beauty of the “Land Down Under” with our 10-day guided tour of Australia. The tour offers an exciting combination of city sightseeing and adventures in nature. It will take you to the vibrant, ultra-modern city of Sydney, allowing you to compare that to the older colonial charms of Melbourne – then transport you to the natural underwater wonders of The Great Barrier Reef. The tour starts on October 10 and ends on October 19. The direct eight-hour flight will depart from Narita International Airport at 11:30 PM and arrive in Sydney the next morning. You’ll return by direct flight, arriving back at Narita at 9:00 PM.

A Japanese-speaking guide will greet you at Narita Airport and stay with you throughout the entire tour. Beginning in Sydney, you’ll spend three days discovering the city’s iconic sites, including a special tour of the famous Sydney Opera House and several hours of beach time at the world-famous Bondi Beach. From Sydney, we’ll take a flight to Melbourne for three days, exploring the famous shopping districts, visiting the botanic gardens, and going penguin viewing at St Kilda. The final leg of the tour will be in Queensland, where you’ll have three days to explore the Great Barrier Reef, one of the Seven Natural Wonders of the World. After a farewell dinner on October 18, you’ll return to Japan on October 19.

The tour cost is ¥380,000 per person. This price includes the two international flights and local transportation, as well as domestic flights between cities and transfers to various attractions. It also covers hotel accommodations, daily breakfasts, and a guided tour of the Sydney Opera House, the Royal Botanic Gardens, and the Great Barrier Reef. Optional activities, such as a scenic flight over the reef or a visit to a wildlife park, are available for an additional fee. For further details, please contact us

by phone or email. Travel insurance is available for ¥15,000.

In October, Australia can be warm during the day but cool in the evenings, so we suggest you pack for a variety of weather conditions. Light, breathable clothing, sunscreen, a hat, and sunglasses are important for the daytime. For the Great Barrier Reef, don't forget to bring swimwear. We'll provide snorkelling gear at no extra cost if you wish to swim with the fish. Comfortable shoes for walking are also recommended. We can assist with visa requirements, but please be aware that your passport must be valid for at least six months beyond the date of your departure.

問題 D 次の英文を読み、25 ～ 29 の設問に対する最も適切な答えをそれぞれア～エか

ら1つ選び、答えはマーク式解答用紙の25 ～ 29 の記号にマークしなさい。

Today, the world feels smaller than ever before. This is not because the Earth is shrinking, but because people, countries, and cultures are becoming increasingly interconnected. This idea is called the “global village” by many people. Thanks to technology such as the internet, airplanes, and smartphones, people from different countries can easily communicate, work together, and share ideas. In the past, meeting someone from another country was very rare for many people. But now, it is common to see foreign tourists, workers, and students in cities like Tokyo, Osaka, and Fukuoka. According to Japan's Ministry of Justice, nearly four million foreign residents were living in Japan as of 2025. This is the highest number ever. These individuals come from China, Vietnam, the Philippines, and Korea, among many other countries. As a result, Japan is slowly becoming a more multicultural society.

English is now a very important language in the global village. About 1.5 billion people in the world speak English, either as their first or second language. This makes it easier for people from different countries to talk, do business, and travel. Many companies in Japan want workers who can speak English because they have customers and partners from other countries.

Multiculturalism means that people from various cultures live together in the same country or city. This can make life more interesting because we can learn about different foods, languages, music, and traditions. For example, many Japanese people enjoy eating curry from India, pizza from Italy, and hamburgers from the United States. There are also festivals like the Brazilian Carnival and the Vietnamese Tet Festival held in Yoyogi Park almost every year. These events help people understand other cultures and make new friends.

Multiculturalism also brings some challenges. Sometimes, people from different countries have different ways of thinking. For example, the way people greet each other is not the same in every culture. In Japan, bowing is common, but in other countries, shaking hands or hugging may be usual. Misunderstandings can happen, but if people learn about each other and respect cultural differences, they can live peacefully together. Other challenges of multiculturalism include differences in working styles and attitudes toward time. In Japan, punctuality is very important. Being even five minutes late to a meeting can be seen as disrespectful. However, in some cultures, being a few minutes late is normal and not considered rude. In a multicultural workplace, such differences can lead to frustration or incorrect assumptions about a person's professionalism. To solve this, companies can provide cultural training to help employees understand and respect different cultural habits.

In the future, the world will become even more connected. To live well in this global village, it is important to accept cultural differences. Learning English and other foreign languages can also help people communicate with others around the world.

Questions:

25. What does the term “global village” mainly describe?

- ア A village where most people can speak English.
- イ A city where people from one country live together.
- ウ A world where different cultures are closely connected.
- エ A tourist area with various international restaurants.

26. According to the passage, why has Japan become more multicultural in recent years?
- ア Because many Japanese people study and travel abroad.
 - イ Because many foreign people now reside in Japan.
 - ウ Because Japan has accepted English as its second language.
 - エ Because each generation of Japanese has a different culture.
27. According to the passage, what is a possible problem with multiculturalism?
- ア Different cultural habits and values can cause misunderstandings.
 - イ Foreigners who live in Japan find it difficult to learn Japanese.
 - ウ Festivals and other events from other countries replace Japanese traditions.
 - エ People stop eating traditional Japanese food and choose less healthy food.
28. Why do many companies in Japan want employees who can speak English?
- ア Because it motivates other employees to learn English.
 - イ Because it improves their image with the business community in Japan.
 - ウ Because they need employees who can speak English for business purposes.
 - エ Because more and more businesses are making English their official language.
29. Why is learning about cultural differences important for Japanese businesspeople?
- ア Because the Japanese way of greeting is now perceived as rude by foreigners.
 - イ Because it is important for Japanese companies to motivate foreign employees to work harder.
 - ウ Because Japanese companies are hiring foreigners these days due to Japan's shrinking population.
 - エ Because it is important to comprehend how others think and act in an increasingly connected world.
